

Mecha
ENGINEERED MECHANICAL SOLUTIONS

PROJECT CAPABILITIES

We deliver on-site mechanical services for shutdowns, turnarounds, critical and project works, specialising in all aspects of delivering fixed plant maintenance solutions.

Mecha's Project Life-cycle's Focus On

- Prioritise & Plan
- Open & Inspect
- Solve & Accelerate
- Close & Commission

Mechanical Projects Team:

Mecha's project teams specialise in the refurbishment and repair of industrial rotating equipment.

We integrate into our clients processes to successfully deliver projects, on time, on budget and most importantly safely.

To support our teams and client communication, Mecha has developed a Project Management System, engineered to maximize team productivity and project efficiencies.

This real-time data leads to better resource allocation and risk management. This level of precision, control and transparency is pivotal in achieving project, quality and safety objectives to exceed our clients' outcomes.

Our in-house, custom built, trademarked project reporting system 'SMIQ' delivers a systemised approach in guaranteeing timely, budget-focused and secure project reporting.

- Boiler shutdowns & statutory inspections.
- Conveying systems & pulley repairs.
- Gearbox & rotating assemblies.

Mobile Workshop:

With a unique 42ft mobile pantech workshop equipped with lathes, mills, specialised tooling and air-conditioned site office, Mecha is able to offer an unparalleled service for turnarounds and shutdowns.

The mobile workshop saves time and money, enabling any machining, metal work or repairs to be completed on site, providing efficient maintenance services, reduced costs and increases the availability of your assets.

Speak with us about our systemised and unique approach in ensuring your projects are delivered on time, on budget and most importantly, safely.

Area's Of Expertise:

- Rotating crushing plants.
- Processing plant repairs & upgrades.
- Milling, marine, coal & refinery works.
- Clarifier upgrades.
- Fan replacements.
- Turbines.
